Garment Transport System

Secures textile rentals while exploiting maximum loading space

Dry-cleaners and textile manufacturers have long said goodbye to the days of folding and packing. They'd rather spend their time serving their customers. Garments can now be transported while being hung on hangers which avoid unwanted wrinkles and creases. The garment transport system transforms your box van into a rolling wardrobe! The poles can be adjusted in the horizontal or vertically installed tracks, allowing you to take advantage of every centimeter.

Your advantages

- combinable in all directions
- high-strength, chromed tube
- light-weight and extremely resilient

■ ■ ■ General information

Garment rail

Velcros

Minimum swivel range

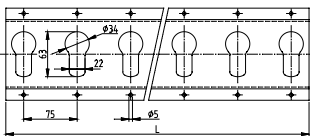

Toprail, minimum height

- maximum use of cargo space.
Garment rails can be hung almost directly under the roof thanks to the minimum swivel range of the toprail.
- the telescopic end can also be filled with hangers and therefore the entire width of the cargo space can be used.
- customs control opening
- weight, only 5,9 kg
- payload 400 daN when load is even distributed
- high quality chromated main tube
- aluminium toprail with two velcros

Components:

Tracks

			Order code
	Keyhole track horizontal	Galvanized steel	560302-10
	 <p>Length: 3050 mm Weight: 5,70 kg</p> <p>Dimension B: 75 mm</p> 		
	Keyhole track vertical	Galvanized steel	560303-10
	 <p>Length: 2134 mm Weight: 3,30 kg</p> <p>Dimension B: 101,6 mm</p> 		

Garment rail

			Order code
	Garment rail for aluminium keyhole panel	Steel, chrome	510490-20
	 <p>different length on demand</p> <p>Length: 2402 - 2508 mm Load capacity: 400 daN Weight: 5,90 kg</p>		
	Garment rail for steel keyhole panel and tracks	Steel, chrome	510491-20
	 <p>different length on demand</p> <p>Length: 2415 - 2526 mm Load capacity: 400 daN Weight: 5,90 kg</p>		
	Garment rail for combi tracks	Steel, chrome	510492-20
	 <p>different length on demand</p> <p>Length 2411 - 2511 mm Load capacity: 400 daN Weight: 7,00 kg</p>		
	Garment rail for CTD side beams and AJS lashing profiles	Steel, chrome	511081-20
	 <p>different length on demand</p> <p>Length: 2400 - 2500 mm Load capacity: 400 daN Weight: 6,50 kg</p>		

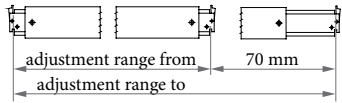

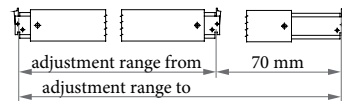

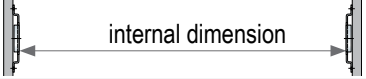

► Fitting

		Order code
	Keyhole fitting for keyhole panel	71412
	Plastic	
	Weight: 0,04 kg	

► Faktor 4

1 - Length		Order code
BC 900: Adjustment lengths from min. 650 to max. 2560 mm: 70 mm adjustment range. Custom made to your desired length. Adjustment range from xxxx - xxxx needed by order.		KAT SL
	BC 900	511309 Length xxxx mm
BC 1100: Adjustment lengths from min. 650 to max. 2510 mm: 70 mm adjustment range. Custom made to your desired length. Adjustment range from xxxx - xxxx needed by order.		
	BC 1100	511310 Length xxxx mm
BC 2800: Adjustment lengths from min. 650 to max. 2520 mm: 40mm adjustment range. Custom made to your desired length. Internal dimensions needed by order.		
	BC 2800	511311 Length xxxx mm
